ROSE

Homes for life

Lawford Green is an elegant collection of traditional styled new homes that enjoy a high specification both inside and out, resulting in homes that are built to stand the test of time.

The design and layout reflect all that is great about traditional design and detailing. The material palette is in keeping with this concept, reinforced by a relatively low housing density and a heavily landscaped layout.

The interiors are however far from traditional and are aimed at modern contemporary living. The new houses blend the best of both and provide highly insulated homes which achieve excellent energy performance ratings and minimal heat loss.

We have long and rich history of building a diverse range of homes in the local area, now over five generations long, a family of builders

who continue to build beautiful homes using the finest traditions. We have stayed true to our original values of quality, integrity, and trust, which has earned us a reputation for the very highest standards of design and construction, which has been refined and fiercely protected over the generations.

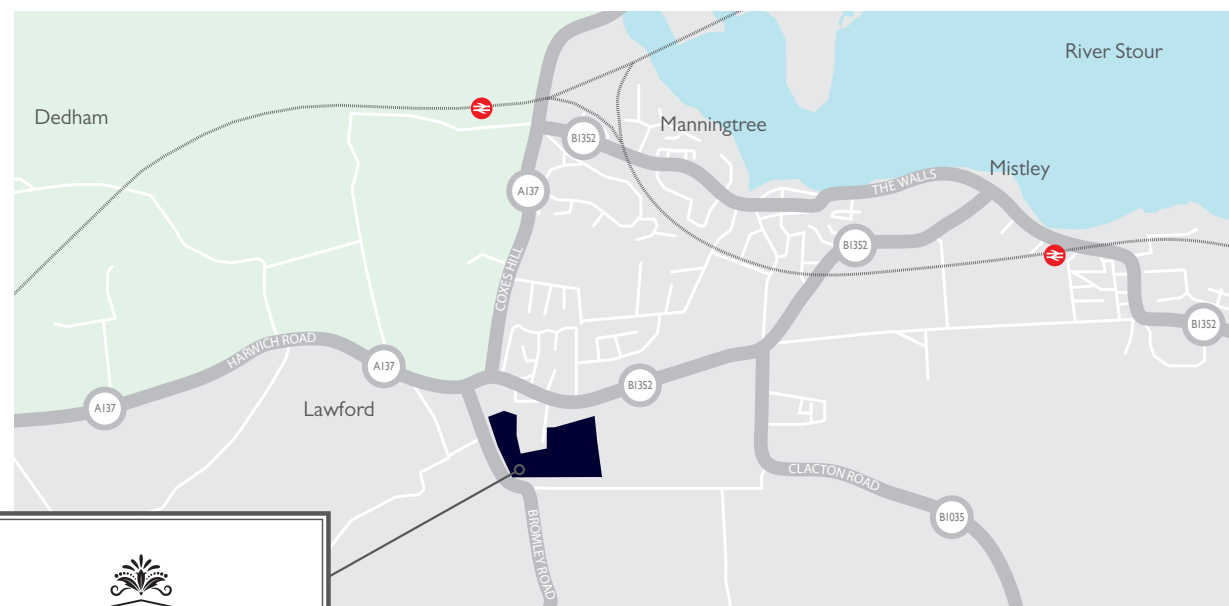

Delivering 'quality' is woven through our DNA, we are committed to continuous improvement and innovation to ensure we deliver exceptional homes and excellent customer service. We are all hugely proud of Lawford Green which delivers a wonderful collection of new homes for Lawford, fit for the 21st Century and beyond – a place where people aspire to move to and are proud to own, somewhere to enjoy life and are proud to call home.
